Attendees

- **Board Members:** Justin Poehnelt, Joe Scarpino, Pamela Flowers, Pat Fettinger, James Trammell
- **Guests:** Peter Sangas, David McCament, Chris Heine, Barry Bryant, Mary Ann Bryant, Tom Allen

Approval/Changes to the Agenda

- No Changes

Conflicts of Interest

- None

Open Period Comments

Approval of Previous Minutes

Pamela Flowers moved to approve, Pat Fettinger second. Minutes approved.

Treasurer's Report as of June 25, 2026

Capital Acct	66,492	General
--------------	--------	---------

	258,787	Water
Operating	61,574	
Grant	16,876	
TOTAL	403,729	

The finances are looking very good for the fiscal year ending 7-31-26. We should come in under budget for operating expenses. I have received all the committee reports, and combined them into one document that will be going out to all of the residents (via Buildium and email) for their review prior to the Annual Board Mtg on July 11th. Hopefully everyone has received their HOA annual packet. It contains the Agenda, Financials and Proxy for the meeting. I will be putting up a flyer at the mailboxes to remind residents of the meeting.

We received a Wildfire Adaptive reimbursement check for \$15,876, which will be recorded in the Grants Earned income. I will be eliminating the Grant bank account for next fiscal year, as it is not necessary.

I am also going to transition all vendor payments to the Buildium software system beginning August 1st. This will eliminate the need to record checks and payments in two different web-based programs, and streamline the entire process of paying vendors.

I would also like to look into a cheaper payroll program for the new fiscal year.

I am in contact with JP Morgan to invest \$150,000 of the water capital money. Hopefully, I can get the paperwork and transaction done before August, so that we can earn 3.45% interest over the next 12 months via money market funds.

Committee Reports

Most committees are submitting reports to be shared at the annual meeting and have not provided a report for June.

Common Property

No report.

FireWise

Work will resume later in the summer, focusing on the most cost effective projects.

Trails

No report.

Community Garden

All plots are rented, with three new household members, making a total of 17 individual household plots and 8 community plots. Almost all of the gardens have been planted and are beginning to grow. If you are interested in helping, please notify Kate Reynolds or Teresa Rushton.

Architecture

There are currently six open projects on the Ranch.

Bees and Chickens

New nesting and roosting area completed within Chicken run. New Chickens have integrated well into the old flock. New Members welcome. Contact Bonnie Bassett at Bonnie Bassett at Bonnie_Bassett@bellsouth.net. Each day yields approx 8-10 eggs with more as the flock matures.

Dam

No report.

Entrance Gardens

We have held off doing most work due to lack of committee members and waiting for the road and gate work at the front entrance to near completion. We are in the process of getting an estimate from a local landscaper for a general garden clean-up. There will be a

brief overview given as part of the 2nd Annual FCR Home Garden Tour on Sunday, June 21st at 7:00 am at the FCR front entrance. If you are interested in participating in maintaining and improving these gardens, please contact Teresa Rushton or Jonni Greiner.

Emergency Response Team

No report. The AED post at OakCrest needs replacement. Signs are fading.

Horses

No report.

Lake

No report.

Roads

Road work will be occurring to repair chip-seal. Some parts of the road will be widened where vehicles are driving on the shoulder.

The gate has the emergency access override installed and will be tested before the gate is kept closed. Will work on onboarding users over the next few weeks and providing a guide for residents.

Utilities

Bonds Construction backfilled the trenches from the leak repairs at Alpenglow and Sunrise with imported sand. They completed one of three planned fire hydrant replacements at 108 Ponderosa Park. The plumber had difficulty finding parts for the connections due to an odd-size pipe between the main and the hydrant.

We checked for leaks in the lower system by isolating sections of waterline during low-use hours between 10pm and 2am. By process of elimination over several nights, a large leak was determined to be in the vicinity of the lower tank. We have requested Bonds Construction to expose the pipe and search for the leak using Hydo-Vac excavation. Repairs will require draining the tank and loss of water service to the lower system for several hours. Advance notice will be sent by email.

Gravel was placed on the access road to the upper tank. Thank you Mark Smith!

We are on the schedule to have Planet Excavation begin replacement of the corral waterline on August 10.

Proposals were requested from two firms to apply corrosion protective coating to the tank roofs. We are working with both companies to clarify the scope of work.

The Committee met on June 23 to discuss the leak repair and tank improvement options.

Will be doing a water test on the ranch house well.

Welcome

No Report.

Ranch Manager

No report.

Old Business

- Mary Ann and Barry Bryant request status of following topics:
 - Service Road Agreement resolution; *The attorney's opinion was that the agreement does not supersede the covenant and bylaws. Deferred while parties obtain additional information. No decision or action taken.*
 - governance policies review/updating by attorney; *James Trammell sent another email to the attorney to remind them of the other policies for review. No other action taken.*
 - Reserve Study contract - need Board approval and signature back to Reserve Specialist for process to start in Fall; *Justin Poehnelt motioned to approve the proposal by Facilities Advisors to perform a reserve study for \$4200. Pat Fettinger seconded the motion. The motion was approved. An additional volunteer group will be formed to work with the Reserve Specialist to provide a capital asset inventory, financial analysis and recommendations for future capital planning and funding led by Mary Ann Bryant.*
 - Entrance gate - no Board approval vote at April Board meeting or since documented; *Pat Fettinger motioned to accept bids, James Trammell second. The motion passed.*
 - April request re plan to remediate drainage berm and temporary logs at the road by Ranch House. *Joe Scarpino will consider options for the area.*

- Peter Sangas: Can we get an update on the chip seal contractor repair timeline? *Joe stated that repairs will be occurring over the next week. Some sections will be widened.*
- Annual meeting logistics, sending out required reports to all residents ahead of the Annual Meeting - *If it rains we have access to the firehouse. Packets have been sent out. Volunteers have covered the remaining responsibilities.*
- Valley Fire Trail - Notice of dispute was received. *Pat Fettinger will provide a response.*

New Business

- Board vacancies - There are two vacancies. Pat Fettinger is a nominee for one of the 3 year terms.

Executive Session

-

Announcements

- Email board@fallscreekranch.org if interested in serving on the Falls Creek Ranch Board.
- See <https://fallscreekranch.org/residents/calendar> for future Board Meetings
- Join the [FCR Slack](#)
- Remember that bears are active in the Falls Creek area and residents should take precautions. See <https://bearsmartdurango.org/>

Adjournment

The annual meeting is July 11, 2026 with check in at 8:30 AM. The meeting will be held at the picnic grounds.
